B&C SHIELD SOFTSHELL PRO

This high performance 3-layer rip-stop PRO Softshell jacket is ergonomically designed to provide high levels of comfort, whatever the job. It's strong, modern look adds style but it's also waterproof and windproof, providing great protection to those working outdoors. Functional details complete the ideal partner at work. Its carefully designed ergonomic construction ensures the wearer ease of movement, thanks to the elasticity of its fabric.

A micro-fleece lining, full internal stormflap, standing collar and chin protector make it warm and really weatherproof, ideal for working outdoors, whatever the season. Functional, durable and reliable it's a perfect choice for the most hardworking team.

S - M - L - XL - 2XL - 3XL - 4XL

B&C SHELTER PRO

Made to last, this highly functional, heavyweight workwear jacket is designed to protect workers in a range of environments, however bad the weather gets. Its strong, modern look is combined with quality functional details to make sure the wearer is comfortable and visible at all times. Its carefully designed ergonomic construction make this heavyweight workwear jacket comfortable to wear, offering protection and ease of movement.

A heavy padded lining, full external stormflap, standing collar and chin protector ensure warmth and weather-proofness, whilst its longer back protects whether standing or kneeling. 12 multifunctional pockets complete this perfectly reliable and durable working partner.

B&C EXPERT PRO

Designed to give great protection whilst allowing for total freedom of movement, this highly functional workwear bodywarmer is perfect for active teams in a range of environments. Its ergonomic construction including deep cut armholes with elasticated weather protectors makes it warm and comfortable to wear.

Quality functional details, including multiple pockets, a longer back for added protection and reflective piping at the front for enhanced visibility ensure practicality, durability and safety, day and night.
